

Ascension Series 1460

Information & Specifications

(Ascension series shown)

The HSA Ascension Series is the latest innovation in desk technology. Equipped with two linear lifts to allow the worksurface to rise and lower at the operator's leisure, this new product is sure to change the way you see desks. Suitable for classrooms, houses of worship, and other professional environments, the Ascension Series pairs perfectly with optional racks to create a complete audio visual work station environment.

Materials & Assembly: Ascension series desks are handcrafted from a selection of engineered core and multi-core panels with pre-mium Red Oak faces for high dimensional integrity, consistency and strength. Extra thick contour edging is used to match the oak or other optional/custom wood species or high pressure laminates.

Table Top: The 60" wide table surface sits on two lifting systems that allow the work surface to stand from 25" tall at its lowest setting to 36" at its tallest setting. Load rated at 175 lbs lift, this dynamic desk allows you to raise and lower the surface with ease. Wiring grommets are provided at the table rear for additional wire management.

- ▶ ADA Compliant
- ▶ Ergonomic Design
- ▶ Available with two linear lift systems.
- ▶ Looping tambour system
- ▶ Overload and maximum height protection
- ▶ Anodized Aluminum Locking Rolltop

Tambours: Each of HSA's Ascension Series desks comes equipped with anodized aluminum tambours and our industrial locking system. Our tambour system allows for smooth operation that can be easily maintained with occasional application of ordinary wax.

Finish: A variety of stain colors are available with our popular and environmentally friendly waterborne finishing system. These advanced waterborne stains, sealers and finish coats produce a beautiful grain pattern and depth of color. They maintain the natural feel of the wood yet offer some of the best protection from abrasion and spills and keep looking great with minimal upkeep. Actual color samples are available to help you make your selection.

Drawing Notes: The usable depth on the table worksurface for equipment (front to back) is considered approximately 25.5", with an additional 2+" of open space behind that before you run into the rolltop at the back. The maximum clearance height on the work surface is 14" when the work surface is at its lowest position. When rolled up, there is 10" of clearance between the rolltop door and the floor to allow for rear wall connection access. The clearances are adequate for most applications but be sure to measure equipment to be positive. Additionally, a small amount of this clearance is taken by the lock assemblies.

The Ascension Series 1460 Desks are available with the following options customizations:
BASE0-HD: 4 – Special Heavy-Duty Casters
DUALFAN: Dual, quiet, fan system (w/ temperature sensor)
MONARM: High-quality, articulating LCD video monitor support
ASC-18RU: 18 RU with anodized aluminum rolltop.

These and many more options are available. Contact your dealer, or HSA directly, or visit our website at www.hsarolltops.com for more information and design assistance.

WARRANTY: HSA warrants standard products for a period of one year and covers defects in materials and workmanship. Wood is a natural material and every piece is unique. Deviations in the final products from each other or samples in finish, color, contrast, density and pattern are to be expected and is part of the beauty and appeal in wood products and are not considered defects under our warranty. The warranty does not cover improper installation or use of HSA products. The warranty also does not cover appearance or appearance items, finish items or any malfunctions caused by misuse or improper operation. HSA's liability does not include any consequential or resulting damage to person, property, equipment, goods, merchandise, profits, goodwill, or reputation arising out of any defect in or failure of product. HSA expressly disclaims warranty for a particular purpose and only designs and manufactures product according to dimensions furnished by the buyer or as stated in literature, website publication or drawings by HSA (which are subject to change without notice). HSA does not guarantee that another manufacturer's piece or pieces of equipment will fit into one of our designs or products as HSA does not exercise control over the sizes, arrangement, wiring or application of the other manufacturer's products or the end-user's operating preferences. Therefore the determination of whether or not equipment or a system will properly fit into an HSA product is a decision resting solely on the buyer prior to purchase. Warranty items will be repaired or replaced at our option without charge for materials or labor, provided such items are returned for inspection, transportation prepaid, to HSA, Inc., Mishawaka, IN.
