

Classic Racks

Information & Specifications

(model CLAS24-II shown)

The HSA Classic Racks give you a convenient way to house and protect a wide variety of 19" rack mount and non-rackmount electronic equipment. Very suitable for boardroom, Houses of Worship, educational, corporate, recording and other professional environments, the HSA Classic Racks are an elegant and easy way to aesthetically blend audio, video and many other electronic systems into their surroundings.

Materials & Assembly: Classic Racks are handcrafted from a selection of engineered core and multi-core panels with premium Red Oak faces for high dimensional integrity, consistency and strength. Extra thick contour edging is used to match the oak or other optional/custom wood species or high pressure laminates.

Rack: The 12, 16 and 24 space extra deep standard open face racks are fitted with heavy-duty steel rails with extra half-rack tapped screw holes to allow for a wide variety of equipment spacing. A full 3.75 inch clearance is given between the rack rail and the front edge of the rack. The rack rear is a completely finished, 3/4" thick, tab-locked and machine screw secured, removable door panel for easy access, great appearance and maximum security. The door panel features a bottom cable cutout for wire routing and is easily optioned for fan mounting, ventilation, connector panels, etc. The rack floor comes standard with ventilation slotting and a large cable/wiring floor pass through. Other custom modifications and variations are available.

Finish: A variety of stain colors are available with our popular and environmentally friendly waterborne finishing system. These advanced waterborne stains, sealers and finish coats produce a beautiful grain pattern and depth of color. They maintain the natural feel of the wood yet offer some of the best protection from abrasion and spills and keep looking great with minimal upkeep. Actual color samples are available to help you make your selection.

- ▶ The most beautiful & functional solution for housing electronic systems
- ▶ A variety of options are available
- ▶ 12, 16 and 24 rack space versions standard
- ▶ "2 screws" easy access removable rear door with lower cable exit
- ▶ Well-ventilated floor with large, easy wiring entrance/exit
- ▶ Solidly & carefully crafted
- ▶ With a variety of finishes

Other Classic Rack Benefits: The Classic Racks offer additional safety and security by organizing equipment and wiring which, in modern open installations, could be a source of many problems. Being able to "lock-down" the system prevents unauthorized tampering with equipment and wiring between uses. Furthermore, the HSA Classic Racks (and our other fine wood furnishings) convey an image of professionalism and quality, presenting your audio, video, lighting or any electronic system in the very best way and as a matching, integral part of its environment.
